### MONEY AND BUSINESS.

Events during the past week, of the highest importance to the future of the industry and trade, have had as yet but little influence upon markets. The iron and wooler trades have been the chief seats of disturbance and disquietude, and steps have been taken towards remedying the evils in both. At the same time attention has been called in most forcible ways to evils which have long affected the transporting interest, and, by consequence, the safety of this large class of investments, and, if steps toward a remedy have not yet been taken, it is essential that the nature of the obstacles to be overcome should not be wholly lost sight of in a gush of unfounded confidence.

Cheapening wool and iron, says the New York Tribune, is a most important step toward the recovery of the great industries of which these are materials. The average price of wool has dropped another half cent, and the wide difference between holders and manufacturers, which has checked transactions for some time past, seems likely to end, not in the high prices which some growers have expected, but which cannot be profitably paid until the markets are cleared of foreign goods imported through false treasury rulings, yet in prices better than were paid last year. The average of 104 qualities and grades is now 24 3/4 cents, against 22 1/2 cents in the same market a year ago. The decision of the New York collector that goods that have been so largely imported as worsteds are in fact, and must be classified as, woolen goods, being in harmony with the finding of appraisers, will tend to relieve the manufacturers from similar assaults hereafter, but the great stock of goods accumulated by importation has yet to be cleared away.

The iron industry seeks relief, first in a reduction of price, by which an increase in consumption of raw iron may be promoted, and second in a decrease of output, a number of furnaces in Ohio and other parts of the country having stopped production. The Thomas Iron Company reduced its price for No. 1 gray iron to \$16.50 a ton, and \$15 for gray forge, or, says a published statement—lower still if necessary to meet southern competition. A leading Virginia furnace is reported to have reduced its price in turn \$1.50, while Alabama iron was previously sold here and at Boston at \$16 for No. 1. The capacity of the furnace in blast May 1, according to the Pittsburgh American Manufacturer, was but 138,268 tons against 144,252 April 1, while the decrease of The Iron Age makes the statement 4,323 tons for anthracite and bituminous alone. Since the lowering of prices it has been stated that several eastern furnaces have determined to blow out, the southern iron having been largely sold at prices with which they do not wish to compete.

Meanwhile the prospect of excellent crops grows brighter, the government report for May 1 indicating a better condition of wheat than was recorded at this stage even in 1884, when the yield was the largest ever known. Acreage is probably about the same as in that year, the increase in spring wheat being apparently even larger than official reports have indicated. The green crop also promises unusually well, and rye and barley are in excellent condition. With large crops this year, the prosperity of the farmers may be expected to do much toward stimulating other industries, especially if speculators do not again undertake to stop exports by fixing arbitrary and absurd prices. But abundant wheat is likely to be cheap wheat, since a considerable surplus will be carried over from this year, and the farmers of the west may therefore continue disposed to compel transporting companies to carry losses as well as gain.

### THE RESERVATIONS.

It is only a few years now until the time shall arrive when any reservation lands that are not occupied by the Indians in fact as well as in name can be preserved from unlawful invasion and occupancy only by drawing about them a cordon of the national troops, and keeping them there in perpetual encampment. It is sensible policy to conclude, before the time arrives, arrangements for opening all reservations. Past progress is altogether too dilatory. Congress and the departments need an awakening to the necessity of advancing the new Indian policy in its practical aspects without pause or hesitation.—St. Paul Press.

The country is becoming a good deal over-excited in regard to reservations. If the commissioners shall succeed in obtaining the Sioux reservation, there will be as much clamor and craze over it as there has been over the Oklahoma reservation. The fact is, people like to chase a rain-bow. Distance lends enchantment to the view. There is always better land in some far-off territory than in the states or territories that are reasonably accessible.

It is a fact that there is better farming land in Nebraska and Kansas and Dakota, than can be found in Oklahoma or any of the Indian reservations west of the Missouri river; and another fact is that it won't cost as much to make a farm in either Nebraska or Kansas, or in Dakota east of the Missouri, as it will in any reservation that can be opened to the public. But people are always craving for something new and for land that has never been inhabited.

It is surprising that with so much splendid land in the new states and at very reasonable prices, there is such a clamor for reservation lands, where the

cost of making farms is more than the land is actually worth. It does not require a very wise mind to foretell the result of "farming" in Oklahoma, nor what "farms" will be worth on the Sioux reservation ten years from now.

### FEW DIE, AND NONE RESIGN.

A strange thing has happened at Washington. There is an old saying in regard to those who hold office that few die and none resign, but this saying which is nearly as old as the government, has received a black eye at Washington.

Secretary Rusk has been trying hard ever since he has been a cabinet officer, to make room for a few republicans in his department. His predecessor, who was a democratic member of the administration, which held that a public office was a public trust, had filled his branch of the government with democrats. Governor Rusk hoped that some of them after they had led the marvelous works of the democratic party in establishing reforms, would resign and give the republicans a chance. But the governor waited a long time, almost despairing, when at last a young man in his department, tendered his resignation. The matter created quite a sensation in Washington and the governor was staggered by surprise.

This is a phenomenal action on the part of the democratic office-holder, and the resignation is so rare and curious a document, that Secretary Rusk has caused the same to be framed and hung in a conspicuous place in his office.

The Mail and Express: Intemperance tricked out in tight, imitation rinks, luscious females and caparisoned horses, from one of the "hosts" of the centennial parade, essayed to capture president. The halt was made, the white wine drawn, the gay Gaiymede delighted, saluted with the grace of Adonis, and the leverage was not tested. Gaiymede returned to his chariot crestfallen as Vulcan, mad as Pluto, and dashed the libation on the unabsorbing granite pavement. The car rolled over it, and it was not the crushed body of Benjamin Harrison with all the hopes of American virtue which lay writhing in wheels; it was the body of the well planning, skillfully-executing but de-festing whisky fiend, instigated by the democrats of this metropolis, inspired by the fumes of eight thousand gallons of this city, and urged on by the whole-sale manufacturers of liquid democracy the whole country over.

Three cheers for President Harrison, who could not be defeated and cannot be captured!  
He is No-Surrender Harrison.

The expressions of admiration and good will that have come to that friend and promoter of all the humanities, George W. Childs, on the occasion of his sixtieth birthday, are such as seldom are called out by the character, career and conduct of any man. Mr. Childs holds a unique place in journalism. He is beloved for traits that are creditable to human nature. He is the genial optimist, whose liberality and overflowing kindness go far toward justifying his cheerful views of life, to all who come within reach of his constant efforts to make the world better and happier for his living in it. Long may he live in the fullness of health, with growing prosperity, power and influence, and enjoying the splendid dividends of gratitude and friendly appreciation that enrich his life.

The Chinese sell us adulterated teas. We have for many years sold the Chinese watered petroleum, and this evidence of dishonesty in the land of Confucius is therefore particularly pleasing to our christian country.—*Minneapolis Tribune*.  
The Chinese are very apt scholars. There is a story told in verse about the heathen Chinese being peculiar in ways that are dark and tricks that are vain and so on. Ah Sin knew what he was about when he played that trick. He was trying to get even with an American—so the dealing of the United States with the Chinese has been tricky for many years, and if they succeed in paying us back in our own coin, we may as well treat the matter with a philosophic smile and commend them for their epistrix.

F. S. Smith, the author of America's national hymn, "My Country 'Tis of Thee," is still living, at the age of 87, at Newton Centre, a suburb of Boston. He wrote the hymn in 1852, and has written less than an hour writing it.—*Chicago Tribune*.

The foregoing paragraph is true except that Mr. Smith is only 81 years old, having been born in 1808; and that the hymn was not written in 1852, but twenty years earlier; and that he did dash it off in one hour.

It is said that ex-President Cleveland's carriage horses, which together brought \$224 at auction last year, cost \$1,000, showing a shrinkage of \$776. These figures represent about the average luck in horse trading.—*Boston Herald*.

The cause of the shrinkage was in the democratic party and not so much in the horse flesh. If 25,000 democrats had not voted against Mr. Cleveland last fall, his horses would have been worth as much as ever.

Hibernians in Conclave at Gotham.  
New York, May 15.—The Ancient Order of Hibernians began its fifty-seventh annual meeting here with closed doors. About 150 delegates were present from all over the country. Reports were read from different branches of the order. The meeting will continue for several days.

A Barn and Horses Burned.  
GALESBURG, Ill., May 15.—A large barn belonging to D. W. Flynn of this city was destroyed by fire Monday night. Two valuable horses and other stock were burned to death. Loss, \$25,000; insurance, \$1,000. The fire is supposed to be the work of some incendiary.

Senator Hale Injured in a Wreck.  
LOS ANGELES, Cal., May 15.—The Senate commission on trade relations with Canada arrived here this afternoon. Senator Hale had his right leg badly injured in a collision of trains near San Jose Monday.

### ON A HORRIBLE CHARGE.

A COUPLE ON TRIAL FOR CHILD MURDER.

The Quarrel of Two Detroit Men Ends in Death to Both—A Highwayman Sentenced.

PITTSFIELD, Mass., May 15.—A trial with many sensational features began in the Superior judicial court to-day, prominent counsel being engaged on both sides. The prisoners are Joseph Rivers and his wife Louise. The latter was a widow named Louise Light when she married Rivers, a French painter, having one child 15 months old. A day or two after the wedding the couple went to Cheshire to board with Mrs. Brown, taking the baby with them. Sept. 15, 1887, they left Cheshire on foot for Adams, a distance of six miles. The child was with them when they left, but on their arrival at Adams they did not have it, and explained to friends there that it had died of croup at Cheshire.

Some months afterward, however, inquiry disclosed that the story was false, and it was learned there were strong suspicions of murder. The couple were accordingly arrested in Worcester last May and they have been in jail since that time, having been indicted by the grand jury last July. The trial was set for February this year, but was postponed on account of the illness of the woman. Rivers, when arrested, was brought to this county and pointed out to the officers the place where the child had been buried in a lonely place of woods between Cheshire and Adams, with a shawl belonging to the Rivers woman so tightly wrapped around its face and neck that the medical examiner concluded the child had been strangled to death. The prisoners claim the child was delicate and died in their arms while on the way and they buried it because they had no money to buy a coffin.

### FOUGHT TO THE DEATH.

Two Detroit Men Engage in a Quarrel and Both Are Fatally Wounded.

DETROIT, Mich., May 15.—Some time ago Mrs. Peter Hartwell left her home at 287 First street because of alleged cruelty on the part of her husband and went to live with her father, William Smith, a hardware dealer. Her mother attempted to persuade his wife to return home, but her father objected. This angered Hartwell and he threatened vengeance. He met his wife-in-law on the street Tuesday and a quarrel ensued. The men fought until they were both exhausted and then they drew revolvers and began firing. Several shots were fired, and when the combatants were separated it was found that both were fatally wounded. Hartwell was shot in the left breast and will die within a few hours, and Smith can survive but a short time.

### Said to Be Short in His Accounts.

RUTLAND, Vt., May 15.—J. E. Robinson, keeper of a general merchandise store at Center Rutland, is in trouble on account of an alleged shortage in his books. His partners, the members of the Vermont Marble company, expected a profit of at least \$15,000 on this year's business, but the books show instead a loss of \$150. The store is in the hands of the sheriff, and a suit to dissolve the partnership has been begun. Robinson claims that if he is allowed time to examine the books he can account for the shortage.

### Four Years for a Highwayman.

ASHLAND, Wis., May 15.—Cornelius Hogan, charged in the Municipal court to-day and found guilty of highway robbery, was sentenced to the State Prison for four years in State prison at Waupun. This was the first criminal case tried in the new court.

### THE CRONIN MYSTERY.

Said to Have Been Seen in Toronto—Is on the Ocean?

CHICAGO, May 15.—Chief of Police Hubbard has received the following telegram from Toronto regarding the missing Dr. Cronin:  
"Chief of Police of Chicago: A man who knows Cronin states that the latter has been here since Friday last, but that he has not seen him since 11 o'clock Sunday morning."  
"H. J. GRAVES, Chief Constable."  
Toronto, Canada, May 14.—A couple of Chicago detectives arrived here yesterday in a search after Dr. Cronin. They endeavored to interview Mr. C. T. Long, the gentleman who claims to have recognized the doctor on the street, but Mr. Long refused to talk to them.

### Think Cronin Sailed for Scotland.

MONTREAL, Que., May 15.—Many leading Irishmen here believe that Cronin sailed from this city by the last Allan steamer Glasgow. A person resembling him secured passage by the Canadian for Liverpool, but a few hours before the vessel sailed he went on board and removed his effects, saying he was going to London. An ex-president of the Hibernian brotherhood, who formerly resided in Chicago, says he knows Cronin. He was working on the Glasgow steamer when he heard her. He said he recognized him and that he sailed. He is supposed to have arrived here ten days ago.

### PREPARING FOR STATEHOOD.

Returns from the Elections in North and South Dakota.

ST. PAUL, Minn., May 15.—The heavy rain in Dakota Tuesday lessened the number of men voting. In South Dakota about 50,000 votes were cast. The Sioux Falls constitution was adopted by an overwhelming majority while the delegates elected to the conventions are in the proportion of two Republicans to one Democrat, as agreed upon before the convention. In North Dakota delegates were elected from the constitutional convention which will convene at Bismarck on July 4. Here, as in South Dakota, the minority party (Democratic) was given one-third of the delegates. Returns from the elections show the agreement has been generally adhered to.

### New York to 'Frisco on Horseback.

NEW YORK, May 15.—Prof. E. H. Platt, of a riding academy in this city, and John Allen, a hotel proprietor, started from this morning on a horseback trip across the continent to San Francisco. They will take a dual route for their destination and will change horses whenever necessary. At San Francisco they will take the steamer to Australia and complete a circuit of the globe, but they will not take horses with them. Halls will be made at Pittsburgh, Wheeling, Leavenworth, Kansas City and Salt Lake City. The Professor is 50 years old and Mr. Allen 35.

### Snow in Dakota.

HORE, D. T., May 15.—Snow fell to the depth of two inches here to-day. It is considered beneficial to the grain crop.

### A Dish of New F's.

Oh, yes, indeed! These are the P's for you, poor, sick man or woman. Nothing like them for keeping the bowels and stomach regulated and in order—tiny, sugar-coated granules, scarcely larger than mustard seeds. They work gently but thoroughly.

### NOTHING AGAINST BOULANGER

The Senate May Drop the Prosecution—Difficult to Frame a Charge.

PARIS, May 15.—The Nineteenth Century, in an apparently inspired article, says that the Senatorial court finds difficulty in framing a specific charge against Gen. Boulanger. Some Senators propose that a nolle prosequi be entered in his case, others that he be tried at the assizes, and still others that he be court-martialed. It is believed, says the paper, that the proceedings against Gen. Boulanger will fail, and that the prosecution of M. Rochefort will also be abandoned.

### Chit-Chat from London.

LONDON, May 15.—In the House of Commons the bill for the increase of the navy has passed through the committee of the whole and now comes up for third and final reading to-day.

The Queen held a drawing-room reception to-day. The crush was tremendous. There were many important personages, including some Americans. The Oliphants have been urged to submit their differences with their tenants to arbitration and the evictions have been deferred.

Funeral of Mexico's Ex-President.  
CITY OF MEXICO, May 15.—The funeral of ex-President Laredo de Tejada was attended to-day by the President and members of his cabinet. The obsequies included a large and stately procession.

Huge Landslide in Switzerland.  
BERNE, May 14.—An enormous landslide has occurred in the region of the Spiezsee, destroying several villages, large tracts of woods, etc., and killing a large number of cattle.

### HARD ON COAL MINERS.

Insist on Their Sweeping Reduction in Wages.  
BRAZIL, Ind., May 15.—The two days' conference between the coal operators' rate executive board and the miners' delegation has ended with the operators' formal refusal to arbitrate the difference between the two bodies in relation to the yearly scale for mining bituminous and block coal throughout the State. The operators demand a reduction from 70 cents on block and from 75 to 60 cents on bituminous, the biggest cut ever made in the history of the coal trade in the West. The operators have refused to arbitrate on the ground that underbidding by Ohio, Pennsylvania, and Illinois operators, makes it impossible to get a market at a less reduction. Seven thousand miners in the State are affected by the decision. All negotiations are considered off, and there is no alternative for the miners but to accept the resolution or remain idle.

### The Experiment Ended in Death.

CLIFTON SPRING, N. Y., May 15.—A bathman at the sanitarium to-day found Dr. Frank A. Vincent dead, having been strangled in the machine used to straighten the curvature of the spine, the invention of Dr. Sayre of New York.

It was a tripod, eight feet high, with straps to catch the chin and arms, lifting the body so that only the toes can touch the floor. Then a plaster jacket is fitted on. Vincent experimented alone, when the padded belt slipped, catching his mouth and nostrils, suffocating him.

### Renewed Tons of Iron.

DETROIT, Mich., May 15.—A terrible accident occurred at the Michigan Car Works Tuesday afternoon by which one man lost his life outright and three more were unhurt. A gang of laborers were unloading a car-load of iron when some part of the brace holding the load broke and several tons of iron fell on the men, completely burying them. When the victims were liberated Joe Benoit was dead and his three companions were mortally injured. All are Germans and leave large families.

### To Marry Wealth and Royalty.

WASHINGTON, May 15.—Jacob L. Doty, United States consul at Tahiti, Society Islands, is engaged to Mary, daughter of Polona, of Tahiti. She is the daughter of Lord and Lady Darcy, the latter being a native Tahitian and the former an English nobleman. The Princess is a beautiful blonde, 18 years old, educated in the best continental schools and immensely wealthy. Doty is a native of Rochester, N. Y., where his mother still lives.

### A Big Boston Shoe House Falls.

BOSTON, Mass., May 15.—John R. Langtry, doing business under the style of Langtry & Smith has assigned for the benefit of creditors. The indebtedness will be less than \$100,000, although no statement has yet been made. It is said that the assets are sufficient to pay a large dividend on the creditors of a business of about \$200,000 a year in the manufacture of shoes.

### Ex-Senator Davis' Bereavement.

MONTICELLO, Ill., May 15.—Mrs. Hettie M. Davis, wife of ex-Senator C. P. Davis of this State, and formerly of Monticello, died last evening at Holton, Kan. The remains will be brought here for burial. Senator and Mrs. Davis were well known in Illinois. Mr. Davis served in the Senate and also the lower House of the Illinois Legislature. He was also Deputy United States Marshal for many years.

### Official Scandal at Winnipeg.

WINNIPEG, Manitoba, May 15.—The Free Press repeats its charge of corruption against Premier Greenway. It now accuses him of receiving money from the promoters of the Manitoba Central railway enterprise. Greenway will probably procure the appointment of a royal commission to investigate the charge.

### Captured by the Trust.

DETROIT, May 15.—An English syndicate, through John P. Grant of New York, has consummated the purchase of five large Detroit breweries. They are those of Jacob Adams, Chris. Endries, Geo. & Michaelson, and two others. The consideration was \$700,000.

## THE NATIONAL CAPITAL.

THE PRESIDENT MAKES SEV-  
ERAL APPOINTMENTS.

The Government Directors of the Union  
Pacific Named—Has Faith in the  
Charleston—Gossip.

WASHINGTON, May 15.—The President  
has made the following appointments:

John F. Plumber, New York; George E.  
Leighton, St. Louis; Jesse Spalding, Chi-  
cago, and Rufus B. Bullock, Atlanta, gov-  
ernment directors of the Union Pacific rail-  
way company.

Alvin Saunders, Nebraska, member of  
the board of registration and election in  
Utah Territory.

William H. Lyon, New York, member  
of the board of Indian commissioners.

Samuel C. Wright, Nevada, superintend-  
ent of the mint at Carson City, Nev.

## REPORT OF MARSHAL JONES.

He Admits That a Few of His Deputies  
May Have Taken Oklahoma Claims.

WASHINGTON, May 15.—The special  
agent sent to Oklahoma a month ago by  
the Department of Justice to watch cer-  
tain government interests there have re-  
turned, and an official report on the  
condition of affairs in the new territory  
is expected to lay on the table to-mor-  
row. The agents in conversation express sur-  
prise at the good order prevailing every-  
where throughout the new country, and  
say that the dust, which is very fine and  
penetrating, is the only objectionable fea-  
ture.

The attorney-general has received a re-  
port from Marshal W. C. Jones of Kansas  
in which he says:  
"I believe that a few of my deputies  
have attempted to file on tracts of land in  
the territory, but I know many of them  
have not, and while I instructed them not  
to do so, when they saw themselves sur-  
rounded by about five hundred persons at  
Guthrie and at least one-half that number  
at Oklahoma waiting for the hour of 12  
to come, I do not wonder that some of the  
deputies who were serving without pay,  
and only there in the interest of good or-  
der, took the fever and attempted to get  
them homes. I never attempted to home-  
stead a foot of land either in Oklahoma or  
any other Territory or State."

It is understood that the Attorney-  
General is not satisfied with the report, and  
that he will call upon the marshal for a  
supplemental report giving the names of  
each officer who filed a claim, a descrip-  
tion of the land secured by him, together  
with an account of the attending circum-  
stances.

The general land office clerks who re-  
turned from Oklahoma say that up to last  
Friday 800 entries had been made at  
Kingfisher and 1,000 at Guthrie. The  
total number of quarter sections in the  
territory open for sale is 10,000;  
hence less than one-fifth of the whole has  
been filed upon. Many of the settlers, it  
is said, have gone to their former homes  
to settle their private affairs, and will re-  
turn next fall to complete their entries  
and establish themselves permanently in  
the new territory. The scarcity of water  
has been to some extent overcome by dig-  
ging wells.

Pension Commissioner Tanner has  
directed a board of pension examiners to  
be organized at Guthrie, Oklahoma. This  
action, the commissioner says, is found to  
be necessary because of the large num-  
ber of ex-union soldiers who have taken  
up homes in the territory. The pension  
office also desires to be officially repre-  
sented during the early days of the new  
country, the pensioners being the only  
made and many vexatious controversies  
which would otherwise spring up in the  
future be avoided.

## FOOYE'S HEROISM.

Secretary Tracy Honors a Seaman Who  
Saved a Shipwrecked Boat.

WASHINGTON, May 15.—Secretary  
Tracy has issued an order calling the at-  
tention of the officers and men of the navy  
to the repeated acts of heroism performed  
by William Fooys, a seaman serving aboard  
the United States steamer Vandall, while  
the vessel was anchored in the harbor of  
Apia, Samoan islands.

"Such bravery and devotion to duty,"  
says the secretary, "merits the highest  
praise." The secretary directs the order  
to be read at quarters on board all ships of  
the navy in commission. On Feb. 26, 1887,  
and March 9 members of the ship's company  
having fallen overboard and in danger of  
drowning, there being a heavy sea on,  
Fooys jumped after them and at great risk  
succeeded in bringing them safely along-  
side the vessel. Subsequently a rope got  
foul of a propeller, the ship being then in  
a dangerous place, when Fooys dived un-  
der and managed to clear the rope, al-  
though the sea was heavy and swelling.

## Played Ball and Gets a Pension.

WASHINGTON, May 15.—Assistant Sec-  
retary of the Interior Bussey has made an-  
other important ruling.  
George W. Allen was a member of com-  
pany H, Seventy-second Indiana volun-  
teers. In December, 1862, while in camp  
at Blount, Tenn., the troops were ordered  
to play ball for exercise. While doing so  
Allen fell and strained his arm, which  
is now disabled. In 1871 he applied for  
a pension, but Pension Commissioner  
Black rejected the application on the  
ground that the injury was not received  
in the line of duty. Secretary Bussey re-  
verses that decision and grants a pension to  
Allen, as the injury was incurred in the  
line of duty.

## Will Repair the Monocacy.

WASHINGTON, May 15.—The United  
States steamer Monocacy was to have been  
sold at auction to-day at Yokohama, but  
an order from the Navy department has  
been telegraphed stopping the sale. The  
Monocacy is an old wooden vessel which  
had been on the China station so long that  
it would not be safe to undertake to bring  
her across the Pacific to the United States.  
Several times the department has de-  
cided to sell her, but the order has been re-  
voked at the last moment. Not long ago a  
board of appraisement recommended that  
the Monocacy be repaired, and for this  
reason the sale has again been postponed.

## Treasury Hyatt \$35 Short.

WASHINGTON, May 15.—The count of  
money at the New York sub-treasury re-  
veals a discrepancy of \$35 out of a total  
sum of \$183,000.00. The shortage re-  
sulted from the acceptance of a few coun-  
terfeit notes in the hurry of business and  
by the loss of a few pieces of silver. The  
loss was promptly made good, and a re-  
ceipt in full given to ex-Treasurer Hyatt,  
who was responsible under his bond for the  
entire amount.

## The Supreme Court Adjourns.

WASHINGTON, May 15.—After render-  
ing a number of decisions the United  
States Supreme court adjourned until  
October next. The Chief Justice an-  
nounced the adjournment of Mr. Justice Har-  
lan to the Sixth circuit.

## SUIT IN THE GRIFFITHS CASE.

Does Thomas Lappin or Archie Reid Control the John Griffiths Store?

The Question Soon to Come Before Judge Patterson for Trial.

Summons have been issued by Judge Patterson that will bring into the center of the John Griffiths property. The case is that of Archie Reid against Capt. Piny Norcross.

Capt. Norcross rented the Griffiths store from Thomas Lappin for one month. The store was rented for the benefit of E. W. Lowell, in order to allow Mr. Lowell to reduce the stock of hardware he had bought and get it in shape to move. The rent was paid to Mr. Lappin and at the end of the month Mr. Lowell moved out.

Mr. Lappin claimed the right to rent the store under a mortgage held by him covering both store and stock. It was claimed on the other hand that the store had been rented by Mr. Griffiths to Archie Reid before this mortgage was executed. Acting upon this later claim Mr. Reid had rented the store to J. L. Burnett for saloon purposes, and it is on this claim that he now brings suit against Capt. Norcross for the month's rent paid to Mr. Lappin.

The summons in the case were placed in Officer Cutts' hands just before the municipal court closed last evening. A return is to be made on Tuesday of next week and the complaint in the case will then be filed. Beyond the single month's rent that is involved, the case brings into court the renting of the store hereafter, and also brings in the question of whether Mr. Burnett's saloon will be allowed to remain undisturbed.
